EDUCATION

KIT – Kalaignarkarunanidhi Institute of Technology Coimbatore, India
B.E Computer Science Engineering - CGPA: 7.58/10.0 Pre-Final Year

EXPERIENCE

Appin Technology Coimbatore, India
Artificial Intelligence Intern May 2026
• Assisted in developing and training machine learning models for real-world use cases, gaining hands-on exposure to data preprocessing, model evaluation, and AI development workflows.

Decode Labs Lucknow, India
Artificial Intelligence Intern May 2026
• Contributed to AI-driven projects by implementing and testing machine learning algorithms, collaborating with the team to optimize model performance and accuracy.

Rinex Technology Mangalore, Karnataka
Web Developer Intern June 2026
• Developed and maintained responsive web application features using front-end and back-end technologies, contributing to improved UI functionality and user experience.

PROJECTS

AI Chatbot | HTML, CSS, JavaScript
• Developed an AI-powered chatbot web application using HTML, CSS, and JavaScript, enabling real-time user interaction through a responsive, browser-based interface.
• Designed and implemented a user-friendly chat UI with responsive design principles, ensuring seamless functionality across devices.

Game-Verse | React, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS
• Developed a C++ console-based Online Quiz System applying object-oriented principles including polymorphism, abstraction, and encapsulation to manage multiple question types (MCQ, True/False).
• Implemented robust exception handling and enumerations to ensure input validation, type safety, and the crash-free execution across categorized quiz topics.

Online Quiz System | C++, Object-Oriented Programming (OOP), Exception Handling, Enumerations
• Developed a C++ console-based Online Quiz System applying object-oriented principles including polymorphism, abstraction, and encapsulation to manage multiple question types (MCQ, True/False).
• Implemented robust exception handling and enumerations to ensure input validation, type safety, and crash-free execution across categorized quiz topics.

Recipe Ingredient Parser | C, Data Structures (N-ary Trees, Linked Lists), Tokenization, Rule-Based Parsing
• Designed a rule-based Recipe Ingredient Parser in C that tokenizes unstructured recipe text and classifies words into quantities, units, and preparations without relying on external NLP libraries.
• Implemented an N-ary tree data structure with linked-list-based sibling nodes to model ingredient dependency hierarchies, enabling structured extraction from raw text input.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, HTML, SQL
Frontend: React.js, Next.js
Backend: Node.js, Express.js, Mongoose, Tailwind CSS
Databases: MongoDB, SQLite, Supabase
Cloud & DevOps: AWS, GitHub, Vercel, Render
Concepts: OOPS, DSA
Tools: Postman, npm, Linux, VS Code

CERTIFICATIONS & COURSES

• **Generative models for developers** — Infosys Springboard Link | 2025
• **Operating System Foundations** — Coursera Link | 2025
• **Foundations of Cybersecurity** — Google Link | 2025
• **Introduction to Ethical Hacking** — Coursera Link | 2025
• **Build, Launch, and Manage E- commerce Stores** — Google Link | 2025
• **Linux Essentials** — Cisco Networking Academy Link | 2026
• **Machine Learning Foundation Certification** — Infosys Springboard Link | 2026

COMPETITIVE PROGRAMMING

LeetCode : Max rating **1287** | Solved problems: **40+** | Top **97.57%** globally | Highest Rank : **29,355**
CodeChef : Max rating **1201** | Position : **1 Star** | Highest Rank **5,656** | Global Rank : **5,83,560** | Solved **450+** problems

ACHIEVEMENTS

• Achieved a 500+ problem-solving rating on CodeChef, demonstrating strong algorithmic and competitive programming skills.
• Actively contributed to open-source and personal coding projects on GitHub.
• Earned 9 MongoDB certifications, showcasing database design and management proficiency.
• Completed multiple technical certifications across AI/ML, cybersecurity, and cloud computing domains.

VOLUNTEERING

• **Event In-Charge at Code Debugging Event:** Coordinated and managed a technical debugging competition, overseeing problem-solving rounds and ensuring smooth end-to-end event execution.
